

Master Maurice Elmalem returned to break his Guinness record with 105 glass plates. He knew how to get the already tired crowd all worked up—after six hours of show—and it was the super grand finale of the evening. The courage of Elmalem amazed everyone who attended his feat; the Master affirmed that this will be his limit and that he isn't thinking of going so far again, dedicating his feat to all our readers... Let's see who dares!

The Kyusho Jitsu exhibition under Shihan Evan Pantazi and Sensei Sebas, Spanish representative, surprised the audience but didn't generate disbelief among the spectators. Only those who already know the system know how efficient it is. Yes, people! They are KO's! Yes! And they work! No, the boys are not thrown to the ground. Next time, Master Pantazi will offer anyone who doubts it and opportunity to try...

Spectacular! The representatives of Wu-Shu (FEJYDA) delighted us with their grace and fluidity. The beautiful teacher brought on some very praiseworthy comments by the males.
